

ALAA BADRA

Web Developer

OBJECTIVES

I am a hardworking individual who has many years of working experience in field web developer .

I aim and aspire to be a developer in big company .

I am willing to show the company that I have what it takes to thrive and succeed in this company as a web developer in working many projects if given the chance to be hired and prove myself.

BIG MOTIVATION

1. To delve deeper into field web developer by using Laravel php, and to be able to exchange my skills with others , get better out knowledge and experience and i will provide many projects in this field to serve many people

2. In reality, i would like to focus my career on developing software applications by using this languages (laravel,php and javascript) , Because it has many advantages and is required Significantly in many companies and self-employment sites, and also it is required in the future Significantly
Also, I found my passion in this field for using these languages more .

So I am also interested in learning the best strategies and frameworks that are used to quickly and efficiently build and maintain software application by using this languages , that it They are used by such big companies .

4. Very much interested in field computer vision so I made project (Eye tracking system) , and I will improve on it more and more

EDUCATION

Al-Azhar University

2015- 2019

Computer and communication Engineering (B.A)

Gaza Training Center(UNRWA)

2013 - 2015

Electronics Engineering (Diplom).

HOBBIES

My dream, working in companies inside and outside my country to exchange my experiences and skills.

And to serve people from my projects in web programming field

My dream be Advance Web developer

WORK EXPERIENCE

FreeLance (Web Developer in projects by myself)

1/2020 – until now

I am developing project (Online Shopping) in Back-end: **Laravel , Php** by using **MySQL Db** , in front -end: **Ajax , JQuery , Js , Css, Html** , relation between back-end and front-end , and resoling fix bugs in my website if exsit .

GAZA SKY GEEKS (working in freelance websites)

9/2019–12/2019

Enrollment in Freelance Academy ,training on working on many freelance websites and work projects in it , which is I worked project Full-stack by using:

NodeJs , Express , ReactJs , MongoDB , Postgress

GAZA SKY GEEKS (Web Developer)

7/2019–9/2019

Training many students in this field and was a team lead on a team in a project

GAZA SKY GEEKS (Web Developer with teams)

12/2018–6/2019

I am shared in code academy , which is learnt many skills in web development in back-end and front-end , in nodeJs, express , Js , ReactJs , React bootstrap .

i made in this period with teams on many projects for clients local and international

Ministary communication and IT (communication engineering)

9/2019 - 2/2020

made a project for determining site the transmitter like gps , which is i made it for Ministary telecommunication and IT .

And helping many communication engineering in their projects

Al-Hamse company (Web Programmer)

6/2018–8/2018

developed website for this organization by using Php .

Palestine T.V (Sound engineering)

8/2018–9/2018

know definitions in field sound engineering , which is used and deal with a device mixer for change frequences sound and calibrate this sound and enter effects on this sound and so on ..

Ministary communication and IT (Networking engineering)

9/2018–11/2018

made a projects in this field by using packet tracer program and programming the routers and deep knowing in definitions in networking field

initiative one million coders (web developer in Python)

5/2018–7/2018

made many projects in python

initiative one million coders (Data Analysis)

understood and used Mathmatics in field programming in python languages.

Web Tech (Developer Anroid)

made many projects in Anroid

UNRWA (Computer engineering)

2016–2017

helping in projects computer engineering

Learning Resource Center (Electronics engineering)

2014-2015

made many Electronics projects and programming this electronics by using a program micro controller and make pcb for this electronics after that prepare this electronics for using .

and i made graduation project in diplom in title : solar tracking by using dish for collecting the solar from sun instead cells

UNRWA (Training)

2013-2014

Maintanance many electronics and devices laptobs.

SKILLS AND ACTIVITIES

★★★★★ My Skills are as Follows ★★★★★

1. Backend:

- ☒ Laravel , PHP.
- ☒ Node.js, Express.
- ☒ Dealing with servers and APIs .

2. Database:

- ☒ MySQL.
- ☒ PostgreSQL.
- ☒ MongoDB.

3. Frontend:

- ☒ Vue.js .
- ☒ Javascript .
- ☒ React.js , React Bootstrap .
- ☒ Bootstrap , HTML, CSS, Javascript .
- ☒ Ajax , JQuery .
- ☒ Responsive Web .

4. Github, Git , Trello:

- ☒ Dealing with Trello and Github in projects and organization tasks the project by using section issues or projects in Github .
- ☒ sharing the code in Github to show it public or for the team by using skills Git (git push origin , git pull origin , git commit , git status , and so on ...)

5. Working with Team

- ☒ flexibility dealing working with team in many projects such as approx. 10 projects with differnet teams to work projects for local and international clients .
- ☒ leading and mentoring on teams and training skills (as i was responsible for training and education many students in field web programming languages in Code Academy in GSG).
- ☒ good communication skills with my team and the clients , gained through my experiences as web developer
- ☒ sharing in many Competitions and Hackathons in GSG in project to solve problems that it face the women by using web programming language .
- ☒ good searching on many information , reading documentations that it related with the subject that i need it and ability resolving errors in projects without fair .
- ☒ showing my idea project for many people in many conferences
- ☒ gained on the Second place twice in competitions in my project in titled : smart home based on eye tracking system. In field A.I and web development

MY PREVIOUS WORKS

I worked a project E-commerce full development (front-end , back-end)which is exist in it :

- pages show without need into register in website , this link video for this website in this case :
https://drive.google.com/open?id=1rNW403M7_uFIFQTcVniLOFjGNsprB2kk
- pages show when register by using user account in website , this link video for this website in this case :
<https://drive.google.com/file/d/1fnUNIJ-A4eR3LhwHL8CpkdjW4gCi2zyE/view>
- pages show when register by using admin account in website , this link video for this website in this case :
http://www.mediafire.com/file/lmrpi566mfxvbj8/Admin_accont.mp4/file

and here source code for it : <https://github.com/alaabadra/E-Shopper-website>

Aslo I am developing another project (interaction webstie) by using laravel , here my repo , but it is for client so it is a private not a public
https://github.com/alaabadra/Sharing-Your-Ideas/tree/back-end?fbclid=IwAR0G0FgSk6gxLq03pcnB2-GnRTGkCZphLDypbN_Q0m3gtx3FxfwVsUfqF2Y

Some Certificates of my previous work

Date : 26 January 2020

Subject : **Letter of Completion for Alaa Badra**

Gaza Sky Geeks is a tech education centre, start-up hub, and co-working space launched by Mercy Corps and Google. Our overall mission is to increase the international competitiveness of the tech ecosystem in Palestine and empower anyone to earn an income through the internet.

In 2017, we launched Palestine's first full-stack coding bootcamp, known as the Code Academy. The Code Academy program entails 8 weeks of core curriculum that covers test-driven development, using a full JavaScript stack (JavaScript, Node.js, React) with relational databases, followed by several weeks of project-based learning developing minimum viable products (MVPs) for real world clients to jumpstart their portfolios. This letter is in support of Alaa and confirms her participation in the sixth cohort of the Gaza Code Academy.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Anam Raheem'.

I have known **Miss Alaa Mohsen Badra** for two years as a student in Electronics & Automated Control course in Gaza Community/Training College.

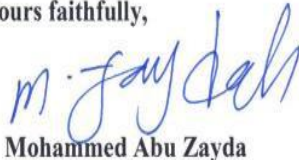

Miss Alaa attended with me classes in the academic year 2013-2015.

Miss Alaa was a dedicated, hard-working and punctual student. She contributed actively to class discussion and performed whatever assignments she was asked to do.

Miss Alaa a well-read student enjoys a charming personality and can cope with new situations. She is open-minded and open to other cultures which will help her to overcome whatever problems she might face.

I can safely say that her dedication to her studies is self-evident and obvious to all. This is why I recommend her to your programs.

Yours faithfully,

Mohammed Abu Zayda

Dear Sir/Madam,

RE: Reference for Eng. Alaa M. H. Badra

I am very happy to write a reference for Alaa. She is an exceptional student with a very high level of intelligence and ability to take on complex concepts and to work with quantitative data sets. I have known Alaa for over 3 years now and in the capacity as her lecturer and as a tutor.

Alaa is a very good and I would say excellent academic and she will love to be stretched during the MSc. programme. Her grades, whilst with us at, were all first class and she excelled in every subject which is particularly unusual given the breadth of subjects she has studied.

Alaa works incredibly well as an individual and she is disciplined with a very sharp intellect. She is also very good when discussing her work in terms of her knowledge of the subject and the advantages/disadvantages of her chosen methodology. As a team member she also performs well and her English language skills make her a very good presenter of individual and group work.

She has already achieved a BSc. degree with distinction and with a Student Prize so I think she will really enjoy the Master program process and she will deliver a fantastic thesis. I fully commend her to you.

Yours Sincerely;

Dr. Tamer aboufoul

Re: Eng-Alaa Badra

To whom it may concern,

I have been working with Alaa as a tutor through Paper Airplanes since the beginning of last semester. We regularly meet weekly for 1.5 hours. Alaa is a very inquisitive, hardworking, and self-advocating student that learns new concepts quickly. She will be an asset to any program or school she joins

Alaa's mastery of English improves weekly and her proficiency is that of an intermediate student. She is aware of her weaker areas, as well as her strengths. She communicates her needs and wants for her language learning goals to improve herself as needed. She always makes sure she understands everything before moving on and is looking forward to applying her skills.

She often asks questions that go outside the lesson plan to make connections with something she already has mastered or is looking forward to learning. As an example, when we were contrasting several past tenses, she requested we look at an overview of all past tenses and their differences.

Alaa works hard on her assignments and is very dedicated to her studies. She completes her work, does not get discouraged by challenging assignments, and enjoys a variety of tasks that are designed for learning.

I can highly recommend Alaa for any program, school, or scholarship due to her commitment to her studies and her dedicated personality. Please contact me at any time at Jacobs_Gesine@ASDK12.org in case you have further questions.
